

# M41 Merri Creek to MCG Water Main Renewal Project December 2018

**Melbourne Water is committed to enhancing life and liveability in Melbourne.** To deliver on this promise we are replacing the M41 water main which runs from Holden Street, North Fitzroy to Wellington Parade in East Melbourne. The M41 water main supplies high-quality water to over 350,000 residents and businesses in inner Melbourne.

Over the past six months the M41 project team have been busy and are more than halfway through replacing the water main. With several work fronts across the 4.6km alignment, the project has successfully installed approximately 3.2km of water main. With completion expected in mid-2019, this project forms part of Melbourne Water's world class water supply system.

### MELBOURNE WATER AND THE COMMUNITY

At Melbourne Water we understand that our works can be disruptive to local communities and believe it's important to contribute to the communities we're working in. Some of these activities have included:

Fitzroy North Primary School named 'Rosie' the tunnel boring machine

Fitzroy North Primary School students painting a pipe for Edinburgh Gardens

Melbourne Water treated Fitzroy Primary School to a trip to the Western Treatment Plant

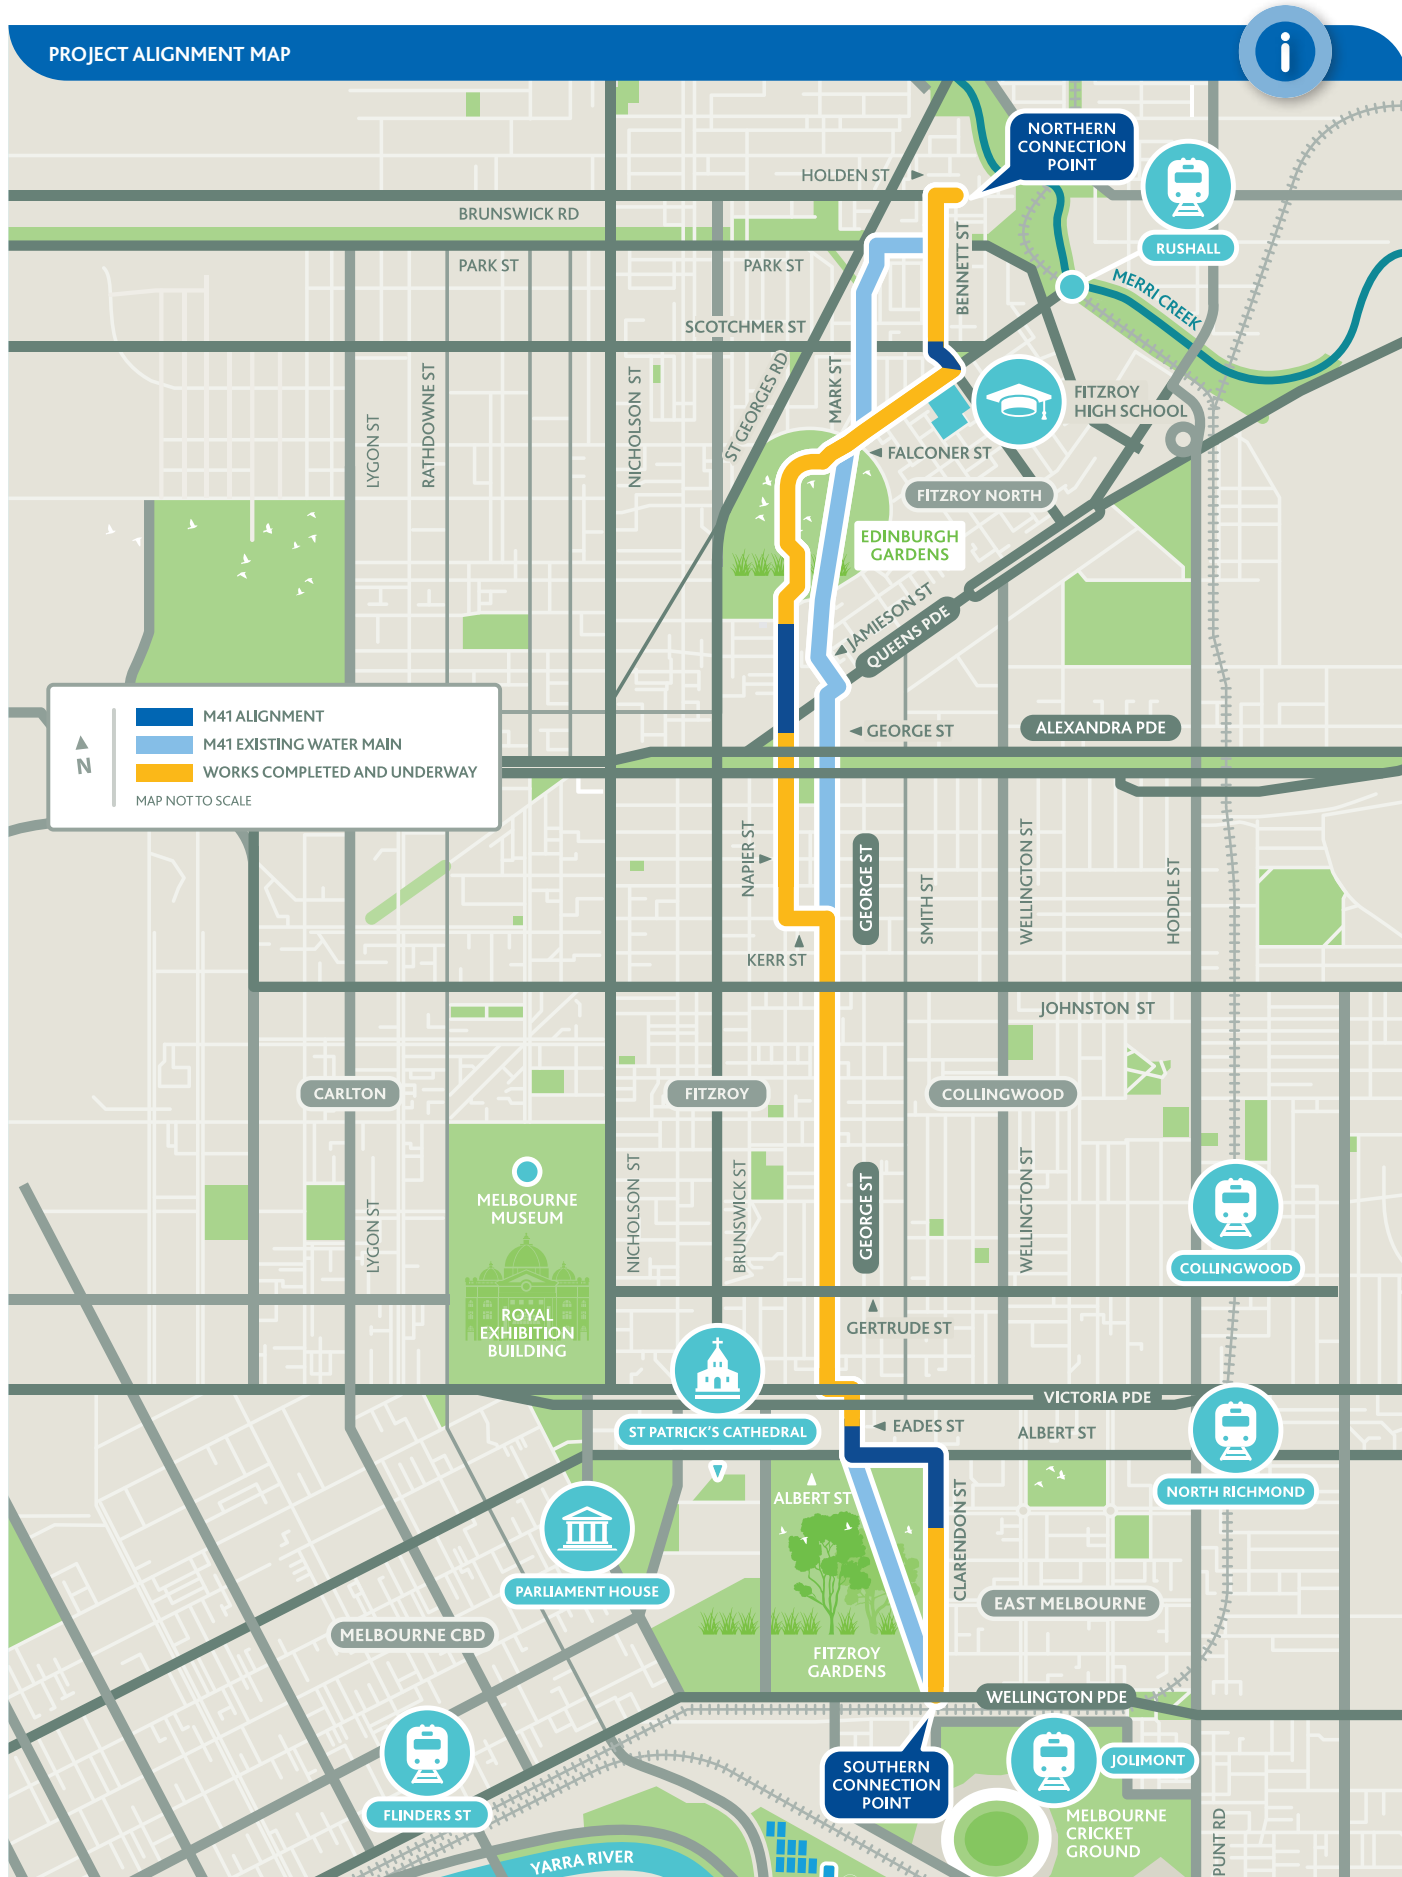

Edinburgh Gardens playground upgrade to thank the community

### ST MARK'S COMMUNITY CENTRE

For over 30 years, St Mark's has run a Community Centre on George Street to serve the people of Fitzroy. It is a drop-in centre in partnership with Anglicare Victoria.

In October the project donated quality second hand clothing following a project wide collection. Toiletry donations were also provided to Orange Sky Australia who offer a platform for every day Australians to connect through a weekly laundry and shower service at the St Mark's Community Centre.

## M41 IN 2019

### Next steps

From early 2019 we will be working to finish the M41 water main replacement. This will include:

- Works along Napier Street between Alexandra Parade and Edinburgh Gardens
- Crossing Scotchmer Street and Queens Parade
- Works along Clarendon, Albert and Eades Streets in East Melbourne, and
- Crossing Wellington Parade to tie the new water main to the existing main through the Yarra Park at the MCG.

Keep an eye out for our local community bulletins which will provide more detail closer to the time.

## YOUR LOCAL COMMUNITY

### Supporting local businesses

Local businesses are the backbone of the community and the project team appreciate their understanding while works have been carried out. The project is committed to supporting local businesses who are directly impacted by construction activities and will continue to do so while our works continue.

Duke of Kerr, Fitzroy

### Thank you

Melbourne Water and CPB Contractors Black and Veatch Joint Venture thank the community and local businesses for their patience during disruptions while we work to improve our water supply reliability and community liveability.

Throughout the remainder of this project we will continue to provide you with regular updates and work hard to minimise inconvenience and impacts.

### More information

If you wish to receive regular information or give feedback about the project please contact the team to subscribe to the project email distribution list.
